EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 11-14 have been cancelled.

2. The following is an examiner's statement of reasons for allowance:

Applicant has withdrawn the non-elected claims 11-14 in response to the office action dated 11/10/04. Claims 1-10 are allowed. The present invention relates to method for transmitting signal over wireless communication channel utilizing plural antennas. Particularly, the method includes "mapping a block of data to a sequence of symbols, each symbol having a scalar value; defining each element of the space-time matrix as a weighted sum of symbols, wherein weights are assigned to each symbol according to a respective dispersion matrix for that symbol, the dispersion matrices do not lead to an orthogonal design". Data mapped into sequence of symbol accordingly are transmitted using antenna diversity is not new in the art. Prior art of record, closest reference (Boariu et al. US 6,865,237) taking individually or collectively, fails to fairly teach at least the above claimed subject matter, as claimed, in independent claim 1 (claims 2-10 depend therefrom). Therefore, claims 1-10 are found to be novel and unobvious over prior art of record.

Art Unit: 2634

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Boariu et al. (US 6,865,237) disclose Method And System For Digital Signal Transmission.

Hammons, Jr. et al. (US 6,560,295) disclose Method Of Generating Space-Time codes For Generalized Layered Space-Time Architectures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dac V. Ha whose telephone number is 571-272-3040. The examiner can normally be reached on 5/4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on 571-272-3056. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
